LINE-UP

Band:

Klāvs - voice, string instruments

Mareks - voice, percussion

Vija - voice, balafon

Dancer

AUDIO AMPLIFICATION SYSTEM FOR THE PERFORMANCE

3/4-band PA system capable of delivering 110dB of distortion-free full frequency range (20Hz – 20KHz) at the mixing point.

MONITORS ON STAGE

3 floor monitor mixes and 3 floor monitors are required on stage; the drummer's monitor must provide strong and clearly defined low-frequency response.

PLEASE PROVIDE FOR THE STAGE:

- 1 electrical outlet 220V sockets near the first (MON1) stage monitor
- 2 electrical outlets 220V near the drums (MON2)
- 3 guitar stands

GUITARS/STRING INSTRUMENTS

- The band brings two guitar amps (amplifiers). Three guitar stands and two stable risers (approximately chair height) are needed to place the guitar amplifiers (amps) on.

VOCALS

The following must be provided:

- 1 headset microphone. If possible, a wireless system.
- 1 Shure sm58 (or equivalent) microphone.
- 1 long stand for the Shure beta58 microphone brought by the group.

NIELSENS LIELSLIENS BRINGS THE FOLLOWING EQUIPMENT:

- A full-size drum/percussion kit that will be set up on stage (replacing the in-house drum kit) and requires full microphone and monitor support provided by the stage crew.
- Percussion drum pad
- Stomp Box
- Fishman Loudbox acoustic guitar amplifier
- Electric guitar amplifier
- Shure Beta58 vocal microphone
- Vocal effects pedal
- Balafon and its stand
- Guitars
